

CSS Tricks You Should Be Aware Of

✨ 6 Awesome CSS Tricks

These are some of the cool **CSS** tricks that you should know as a front-end developer.

Let's learn them one by one 🚀

1. Gradient Borders

Gradient border

```
.gradient {  
  padding: 15px 30px;  
  border: 10px solid;  
  border-image: linear-gradient(yellow, blue) 1;  
  clip-path: inset(0 round 10px);  
}
```

`border-radius` 🖱️ for linear gradient

`clip-path` 🖱️ for rounded corners

2. Truncate Text

Lorem ipsum dolor sit amet ...

```
.truncate {  
  border: 2px solid grey;  
  border-radius: 10px;  
  padding: 10px 20px;  
  width: 500px;  
  overflow: hidden;  
  white-space: nowrap;  
  text-overflow: ellipsis;  
}
```

3. Vertical Text

Vertical

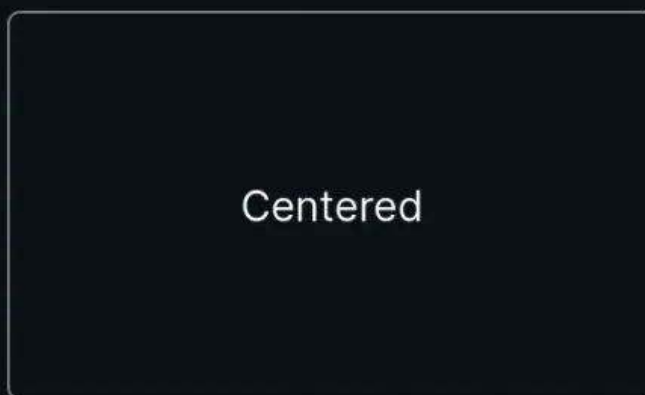

Lorem, ipsum dolor sit amet consectetur adipisicing elit. Voluptatem assumenda quod delectus quidem exercitationem eius facilis mollitia.

```
.vertical {  
  writing-mode: vertical-lr;  
  font-size: 3rem;  
  padding-right: 20px;  
}
```

4. Center Anything

```
.container {  
  height: 300px;  
  width: 500px;  
  border: 2px solid grey;  
  border-radius: 10px;  
  display: grid;  
  place-items: center;  
}
```

5. Disable Text Selection

Selectable

Not selectable

```
• • •  
.select {  
  user-select: none;  
}
```

6. White Space Below Image

Default

Block Element

```
• • •  
  
.image-container {  
  border: 5px solid white;  
}  
  
.image {  
  display: block;  
}
```
