Foundation & structure

by nikkiandchris.io

Document foundation

- `<html>...</html>` The root element. Indicates that a webpage is written in HTML5.
- `<head>...</head>` Container tag for document information.
- `<title>...</title>` Sets the title of a page.
- `<body>...</body>` Contains all content displayed in the UI

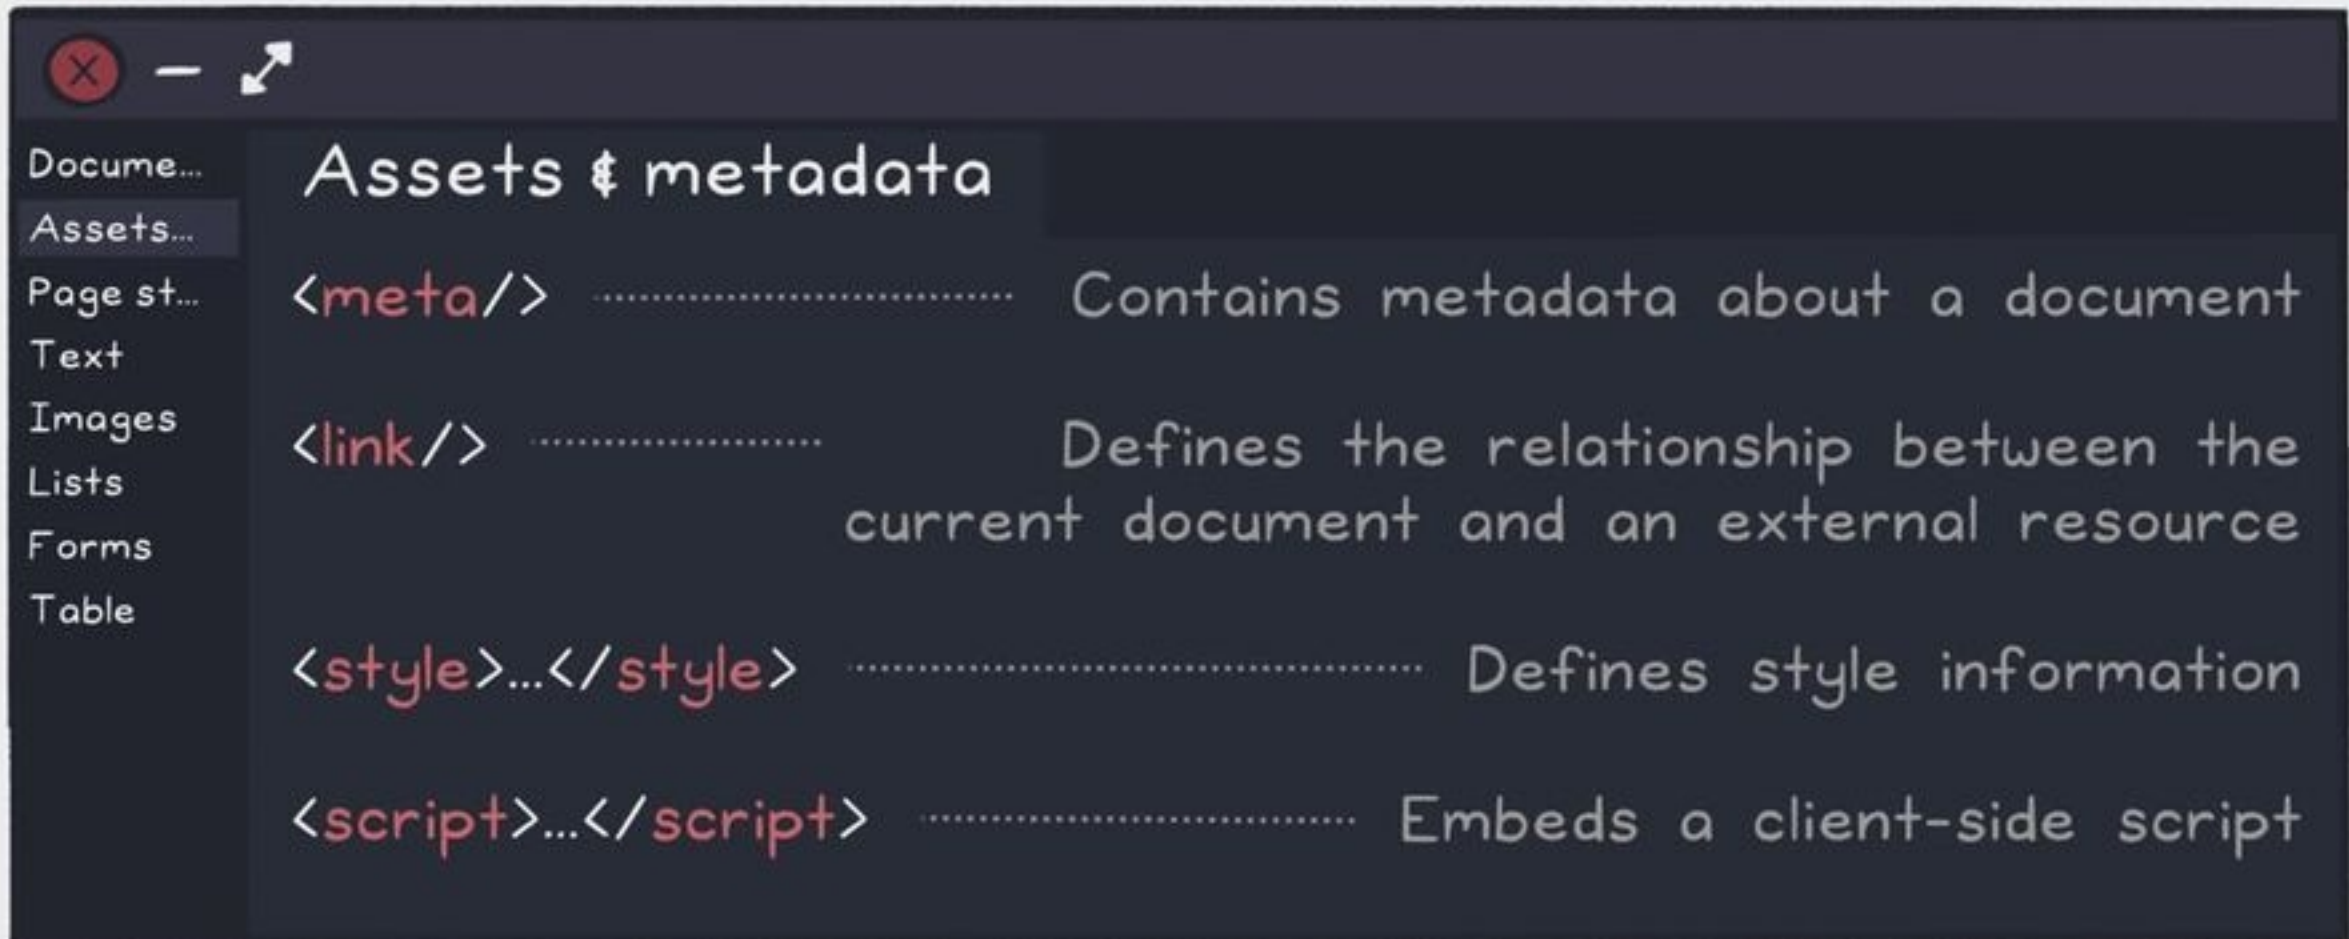

Page structure

- `<h1>...</h1>` → `<h6>...</h6>` Sets headings, with 1 being the most important and 6 the least
- `<p>...</p>` Defines a paragraph
- `<div>...</div>` Creates a section, used to contain elements
- `...` Creates an inline block container
- `
` Creates a single line break
- `<hr />` Creates a horizontal rule (a visible horizontal line)

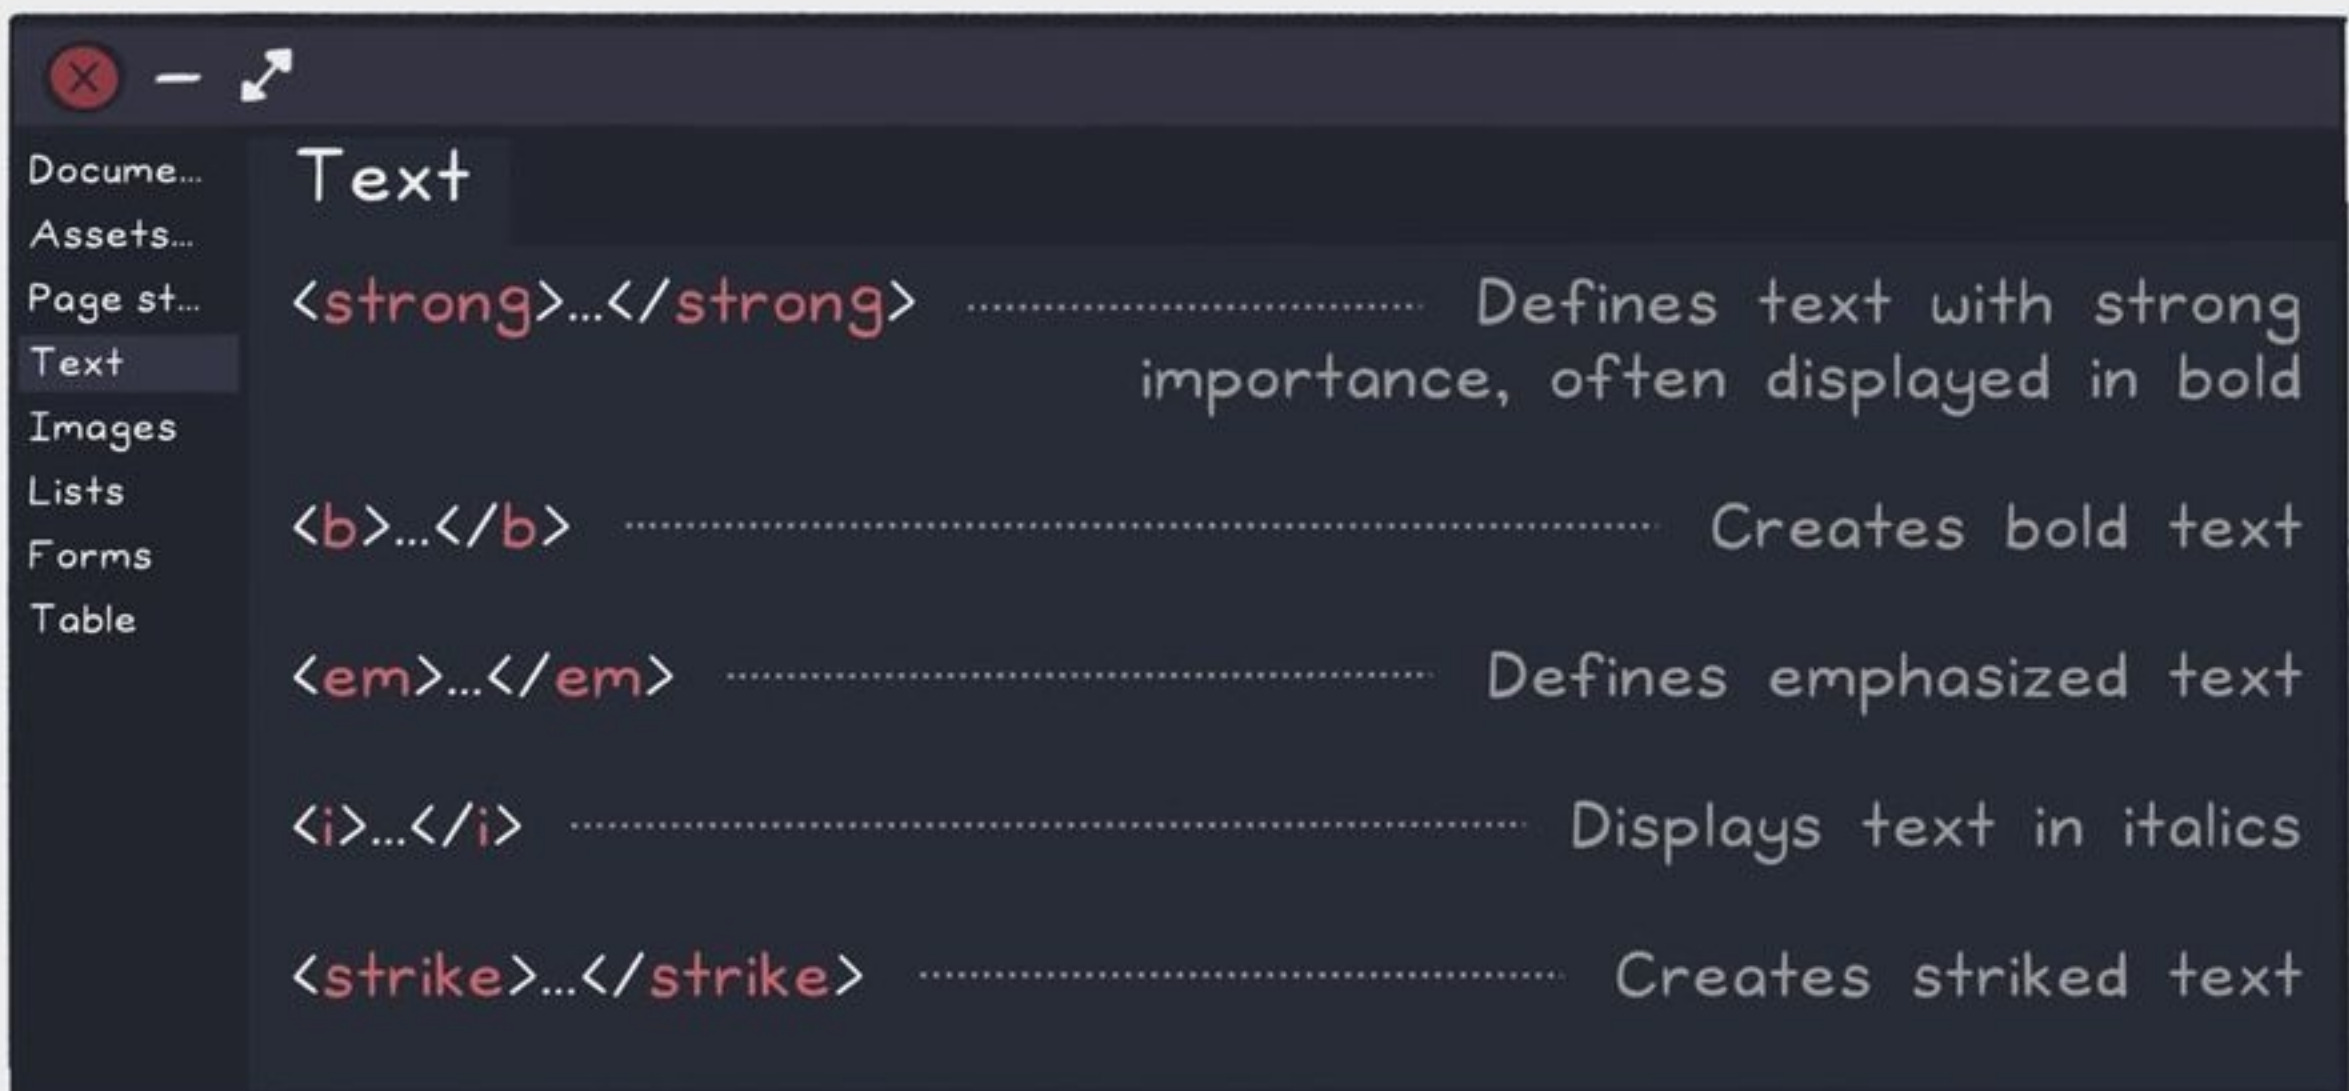

Metadata & text

by nikkiandchris.io

A screenshot of a code editor window titled "Assets & metadata". The left sidebar shows a menu with "Assets..." selected. The main content area lists four HTML tags with their descriptions:

- `<meta/>` Contains metadata about a document
- `<link/>` Defines the relationship between the current document and an external resource
- `<style>...</style>` Defines style information
- `<script>...</script>` Embeds a client-side script

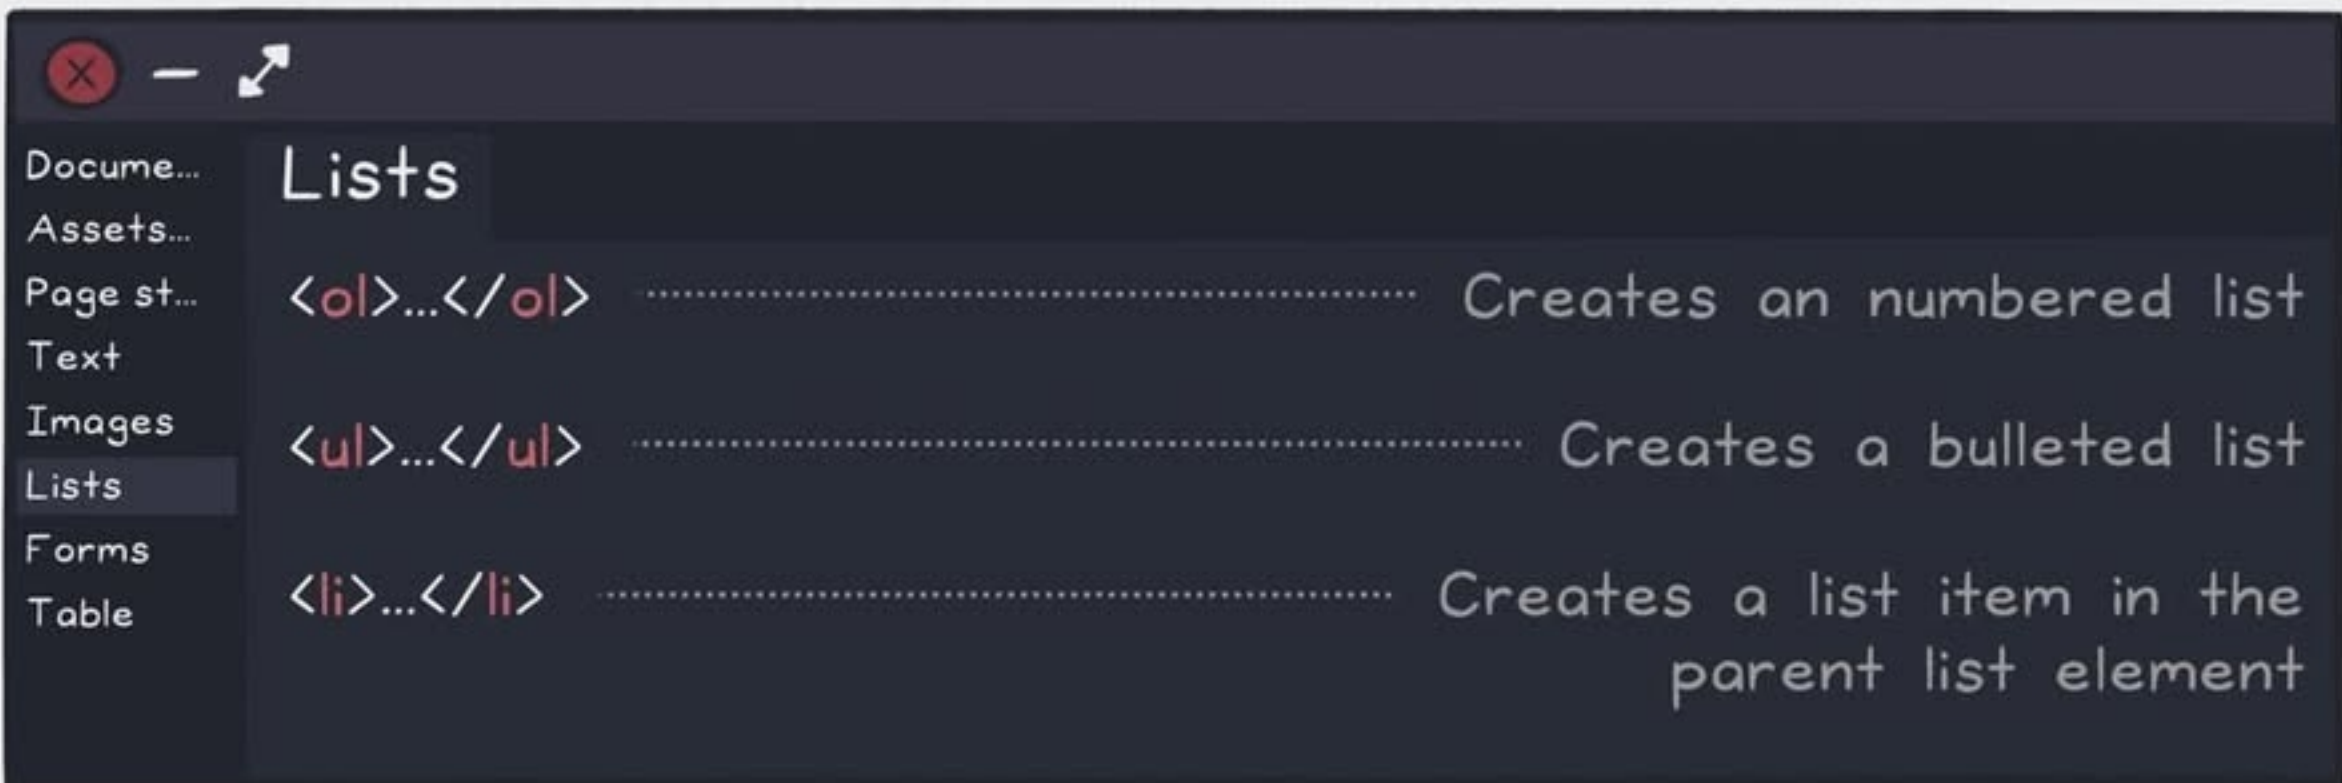

A screenshot of a code editor window titled "Text". The left sidebar shows a menu with "Text" selected. The main content area lists five HTML tags with their descriptions:

- `...` Defines text with strong importance, often displayed in bold
- `...` Creates bold text
- `...` Defines emphasized text
- `<i>...</i>` Displays text in italics
- `<strike>...</strike>` Creates striked text

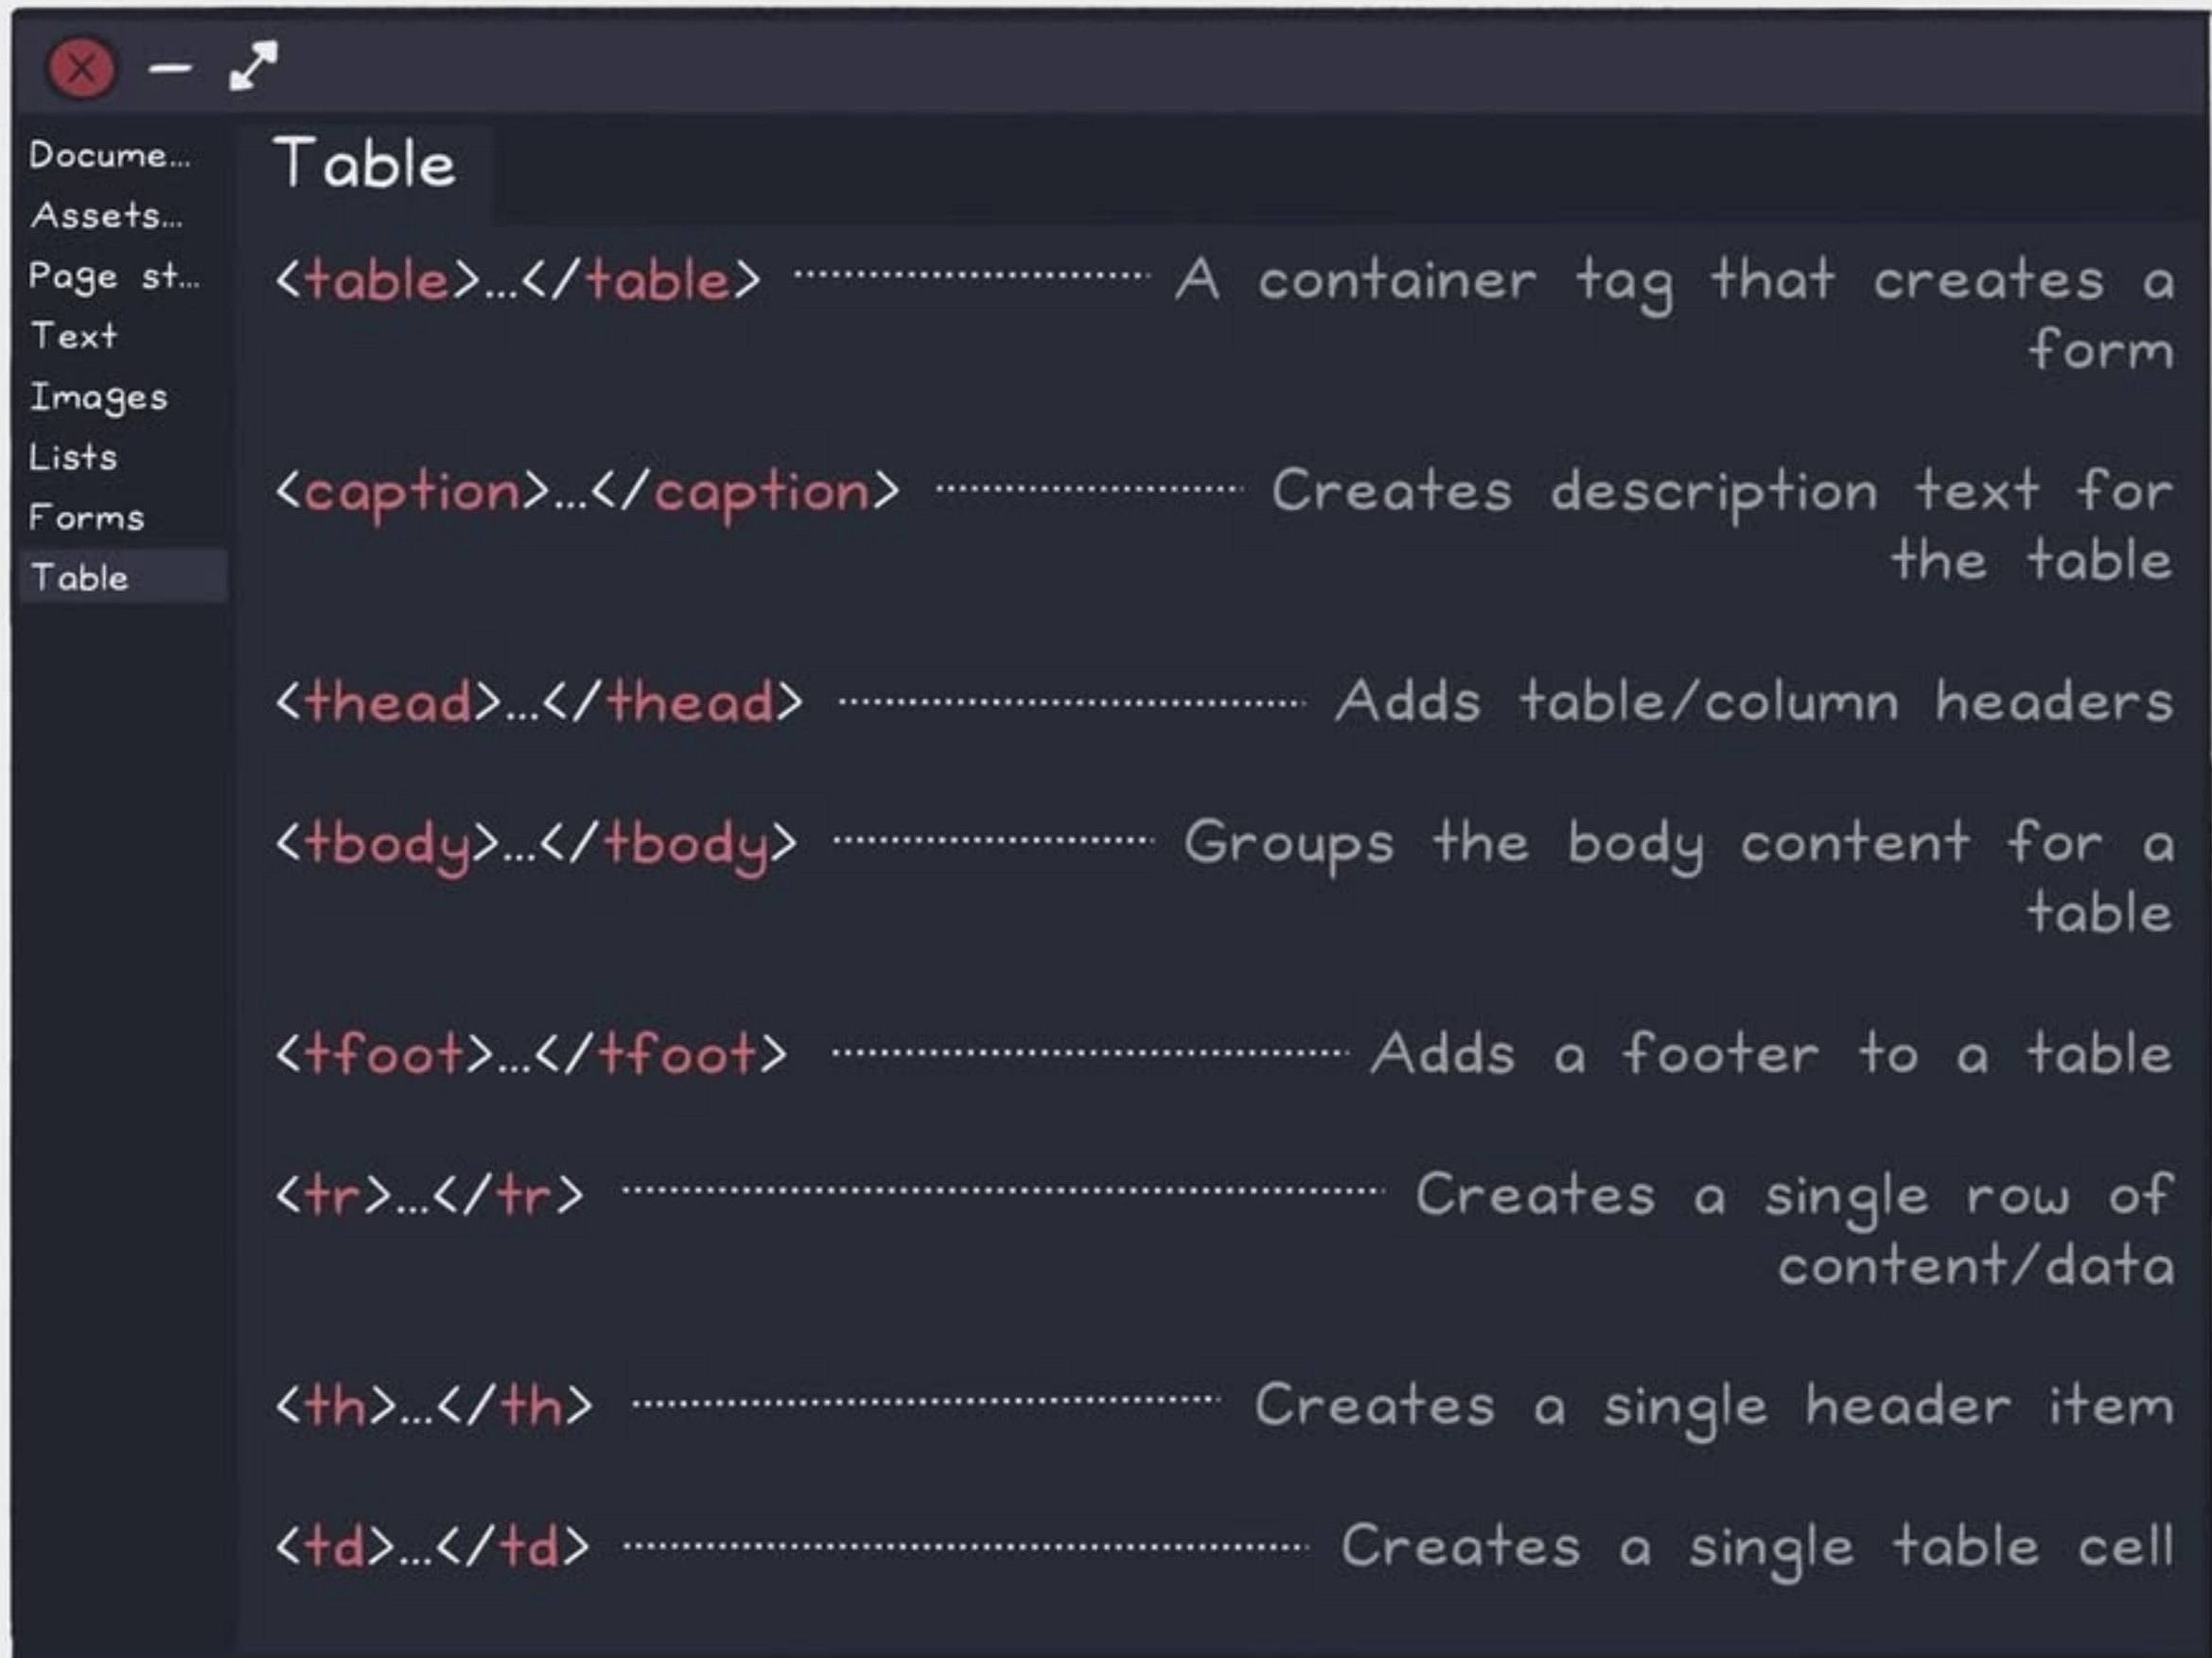

Images & lists

by nikkiandchris.io

Table

by nikkiandchris.io

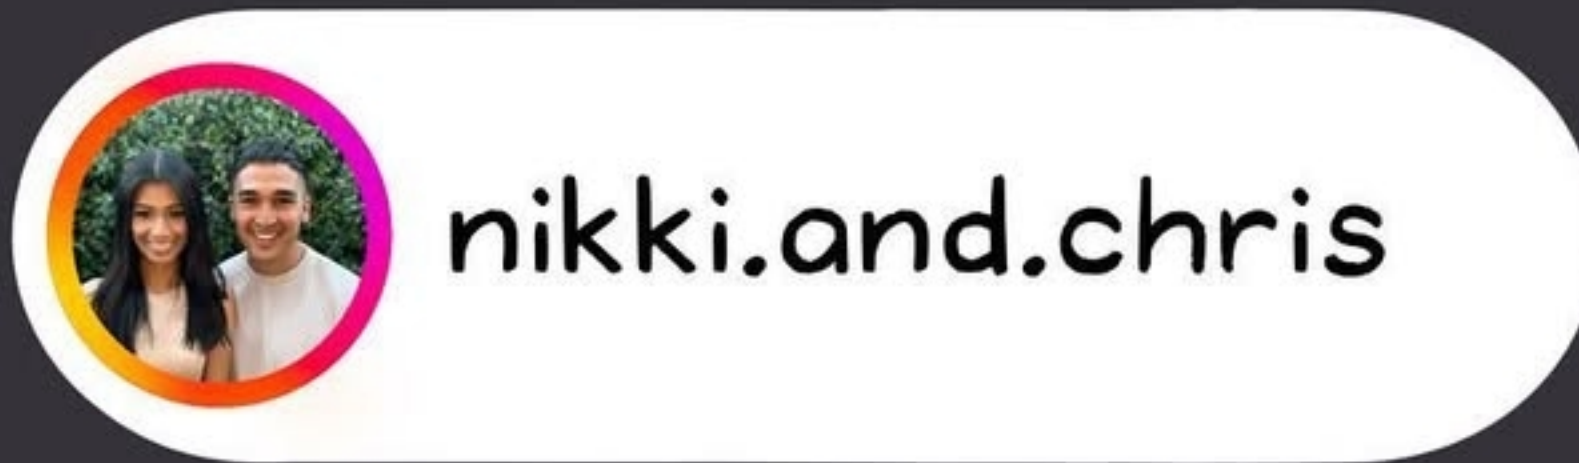

The image shows a screenshot of a code editor window titled "Table". The editor has a dark theme and a sidebar on the left with a menu containing "Docume...", "Assets...", "Page st...", "Text", "Images", "Lists", "Forms", and "Table". The main area of the editor lists several HTML tags with their descriptions:

<code><table>...</table></code> A container tag that creates a form
<code><caption>...</caption></code> Creates description text for the table
<code><thead>...</thead></code> Adds table/column headers
<code><tbody>...</tbody></code> Groups the body content for a table
<code><tfoot>...</tfoot></code> Adds a footer to a table
<code><tr>...</tr></code> Creates a single row of content/data
<code><th>...</th></code> Creates a single header item
<code><td>...</td></code> Creates a single table cell

Forms
